EXPERIENCE

Senior Systems Engineer

Infosys Limited

📅 Jun 2018 - Ongoing 📍 Chandigarh, India

- Lead the automation team for a Fortune 500 client and implemented Robotic Process Automation to convert AS-IS business processes to un-attended and fully automated solutions.
- Completed RPA Developer Certification from UiPath and mentored team members on UiPath RPA environment.
- Worked with **Automation First** ideology and successfully brought 3 POCs(Proof of Concept) to maturity and deployed them as Production projects.
- Built a Node JS based test/action Chatbot and integrated it with UiPath RPA to trigger process automations with simple text messages.

Systems Engineer

Infosys Limited

📅 Nov 2016 - May 2018 📍 Chandigarh, India

- Analyzed and matured business requirements into technical solutions by making use of Oracle's EBS, SQL and PLSQL.
- Innovated a simulator, to dynamically build printable carton labels that reduced the development time from 30 days to 15 days.
- Extensive hands-on experience on Databases and SQL. Implemented multiple ETL use cases and developed around 10 ERP projects primarily in Supply Chain Management domain.

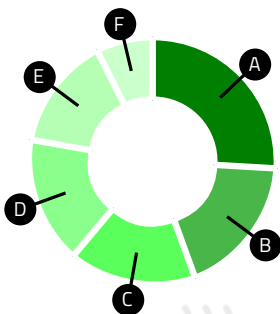

Systems Engineer Trainee

Infosys Limited

📅 May 2016 - Oct 2016 📍 Mysore, India

- Trained in Software Development Life Cycle with technologies like Python, Oracle Database and ERP related tools like Oracle E-Business Suite.
- Developed a banking application with Python and Oracle Database as training project and was awarded with a High Performer title.

INDUSTRIAL KNOWLEDGE

- A** Robotic Process Automation (UiPath)
- B** Coding (Python, Shell, PHP, PLSQL)
- C** Databases (SQL, Oracle DB, MySQL, PLSQL)
- D** Enterprise Resource Planning (ETL, Oracle EBS : SCM, OM, INV)
- E** WebApp Development (HTML, CSS, JS, PHP, Bootstrap, Node JS)
- F** Others (Chatbot, Cyber Security, Cloud)

TOP PROJECTS

Item Substitution Automation

A Business Process automation that saves ~250 hours of manual effort per month.
